SUMMARY

Full Stack Developer and Subject Matter Expert with experience in JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL, REST API development, and Core Java, supported by strong foundations in DSA and OOPS, and software development fundamentals. Experience in developing web applications, working with modern development tools, mentoring learners in full-stack technologies, and translating technical concepts into practical solutions. Strong problem-solving, analytical, communication, and teamwork skills with a continuous-learning mindset and the ability to adapt new technologies and professional environments.

EDUCATION

Bachelor of Technology in Aeronautical Engineering

Aug 2017 – Oct 2021

School of Aeronautics, Rajasthan Technical University

EXPERIENCE

Subject Matter Expert (SME)

Dec 2025 – Present

HCL Guvi

- Providing technical guidance and subject-matter support in Full Stack Development and programming concepts.
- Support learners in understanding and implementing concepts related to Java, JavaScript, web development, databases, and software development fundamentals.
- Analyze technical problems and provide structured solutions, debugging guidance, and conceptual explanations.
- Assist in improving their understanding of DSA, OOPS Programming and full-stack development concepts.

Junior Developer

Jun 2024 – Dec 2025

KGiSL Trust

- Developed and maintained web-based applications using modern frontend and backend technologies.
- Worked with React.js, JavaScript, Node.js, Express.js, MongoDB, and REST APIs in full-stack development workflows.
- Implemented reusable frontend components and responsive user interfaces using React.js and Tailwind CSS.
- Developed backend functionality and API integrations using Node.js and Express.js.
- Worked with MongoDB for data storage, querying, and application-level data management.
- Used Git and GitHub for source-code management and collaborative development.
- Used Postman for API testing, debugging, and validation.

Business Development Manager

Jan 2024 – May 2024

Shiromani Institute Pvt. Ltd.

- Managed client interactions and supported business development activities.

- Coordinated with internal teams to support business and operational objectives.
- Developed communication, negotiation, relationship-management, and leadership skills.

Technical Writer & Illustrator Trainee

Apr 2022 – Oct 2022

GLOINNT Solutions Pvt. Ltd.

- Created and organized aircrafts technical documentation and instructional content.
- Simplified technical concepts into structured and user-friendly documentations.
- Collaborated with team members to improve the clarity and presentation to technical content.

Web Developer Trainee

Oct 2022 – Aug 2023

Newton School

Internship Experience

- Developed web applications and strengthened practical knowledge of HTML, CSS, JavaScript, React.js, and frontend development.
- Practiced component-based development and responsive web design.
- Applied programming fundamentals and problem-solving techniques to development tasks.
- Worked with Git and GitHub as part of software development workflow.

Aircraft Maintenance Engineer (AME) Trainee

Jan 2020 – Dec 2020

School of Aeronautics, Neemrana

Internship Experience

- Gained practical exposure to aircraft maintenance procedures, technical documentation, and safety-oriented processes.
- Developed attention to detail, analytical thinking, and structured problem-solving skills.

PROJECTS

Notes Application | Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs

- Developed a full-stack notes management application with a React-based frontend and RESTful backend.
- Implemented CRUD functionality for creating, viewing, updating, and deleting notes.
- Integrated frontend and backend using REST APIs and Axios.
- Implemented authentication-related API handling and authorization headers.
- Designed a responsive user interface using React, and Tailwind CSS.
- Integrated MongoDB for persistent application data storage.
- Tested and debugged APIs using Postman.

Personal Expense Tracking System | Technologies: Google Sheets, Financial Data Modeling

- Designed and structured personal finance tracking system for managing accounts, transactions, expenses, budgets, recurring bills, and investments.
- Created an accounting-style transaction flow to reduce duplicate expense entries and improve cash-flow tracking.
- Implemented formulas and data validation to automate account balances and transaction categorization.
- Designed the system to track multiple bank accounts and credit cards within a single financial workflow.

TECHNICAL SKILLS

- Programming Languages: JavaScript, Java, Python, HTML5
- Frontend Development: React.js, Redux, Tailwind CSS, CSS3
- Backend Development: Node.js, Express.js, REST APIs
- Databases: MongoDB, MySQL
- Core Computer Science: DSA, Object-Oriented Programming, Functional and Procedural Programming
- Development Tools: Git, GitHub, Postman, Visual Studio Code
- Operating Systems: macOS, Windows, Ubuntu Linux
- Others: Machine Learning Fundamentals, AI-Assisted Development Tools

CERTIFICATIONS

- Machine Learning – HCL Guvi
- React – Meta, Coursera <https://www.coursera.org/account/accomplishments/verify/TG32YTAN8FC7>
- MERN Stack Development, Linux Administration & Cisco Networking – KGiSL MicroCollege
- Core Java – Newton School

CORE STRENGTHS

Problem Solving; Analytical Thinking; Teamwork & Collaboration; Leadership; Communication; Technical Mentoring; Adaptability; Continuous Learning

LANGUAGES

English; Hindi; Nepali
